Telephone +1 940 277 7990

Applications are invited. Places, enabled channels and benefit delivery dates are confirmed in your written offer before enrollment.

YOUR FIRST RELEASE

A launch built around your film

Start with practical help, a defined discovery opportunity and a direct connection with your audience.

Your launch service credit

Receive up to **$150 in approved launch services** for your first film. Choose promotional materials, captions or translation. One shared credit, available for 90 days after your first release; no cash redemption.

A place in the spotlight

One **seven day placement in the Pioneer Collection**, scheduled within 60 days of your approved release. We commit to the placement and timing; audience response determines views and earnings.

Your premiere moment

One assisted online premiere and creator Q&A, with **10 complimentary film guest passes** valid for 48 hours. Event dates, session length and access permissions are agreed before scheduling.

Someone to guide your release

A named onboarding contact, one first upload session and clear release instructions. Your offer confirms support hours, response targets and the launch services available to you.

A report you can use

A first **30 day release report** showing actual viewing, completion and revenue results, with practical recommendations. Use the insights to plan your next release.

A professional creator presence

A creator page for your biography, approved artwork, films and professional links. Build your audience through voluntary follows and release updates, using available tools or an agreed assisted workflow.

Your written offer confirms delivery dates and available tools before you commit. Approved services and premiere access are limited to the scope above.

EARN FROM YOUR WORK

Clear shares. Real revenue.

Amounts in USD

Monetization eligibility begins with your first approved film through an enabled revenue channel. No minimum followers, views or watch hours.

80%

Direct revenue

Your share of net film rentals, approved title purchases, attributable advertising and paid events.

90%

Gifts and tips

Your share of net gifts and tips from genuine audience payments.

50%

Subscription creator allocation

Half of each eligible subscriber net payment is allocated among the titles that subscriber watches, using qualified viewing.

WELCOME EARNINGS BOOST

An extra **10 percentage points** on eligible direct revenue for 90 days after your first monetized release, capped at **$250 total**. Your direct share can reach 90% until the credit is used.

BRING YOUR AUDIENCE

Earn **10% of Kiviox retained subscription revenue** from genuine new paying subscribers you refer, for their first six paid months. Total referral reward capped at **$100 per pioneer**.

What net means. Collected cash less applicable transaction taxes, documented store and payment fees, refunds, chargebacks and title royalties you expressly approve. General Kiviox operating expenses are not deducted before your share.

Your payment schedule. Monthly payout within 30 days after month end for settled, verified funds; $25 regular threshold. Smaller payable balances are paid quarterly where supported. Statements itemize deductions, credits and payments. Provider holds and documented disputes may affect timing.

Rates are protected for 24 months from your first monetized release. Welcome credit expires after 90 days; excludes gifts and subscriptions. Invalid or refunded activity earns no incentive. Actual earnings depend on revenue.

OWNERSHIP AND COMMUNITY

Build your future. Keep your rights.

Your films remain yours. Pioneer participation is nonexclusive, so you can continue distributing elsewhere and honoring existing agreements.

Your film and release controls

You retain all rights you own. Choose approved territories, release windows, supported prices, revenue channels and download permissions. Kiviox receives a limited distribution license for the uses you authorize.

Separate permission for new uses

AI training, voice cloning, likeness licensing, derivatives, exclusivity and Yxara rights enrollment require separate permission. Material edits, dubbing, festival screenings and additional commercial licensing also need the appropriate approval.

A direct audience relationship

Invite viewers to follow your work and opt in to updates. Export only contact details viewers explicitly consent to share with you. Your reports use appropriate aggregated audience information.

Collaboration and commercial opportunities

Record agreed collaborator royalty splits in your title schedule. Opt into a licensing showcase and potential introductions as opportunities arise. Each commercial deal requires separate approval; inclusion does not guarantee a buyer.

A voice in the founding community

Receive pioneer recognition, invitations to quarterly creator feedback sessions and early tool testing. Participation creates no equity, employment or legal partnership. Optional strategic partnerships are negotiated separately.

12 MONTHS OF COMPLIMENTARY KYxara

Your membership starts with your first approved film. Standard plan benefits and usage limits apply. Separately priced purchases, gifts, advertising and services are excluded. There is no automatic paid renewal. You may choose a paid plan or move to KFree afterward; your earned creator revenue and rights remain protected.

Kiviox

INAUGURAL KIVIOX FESTIVAL

Spring 2031

Meet the creators shaping what comes next.

REGISTRATION

Festival registration and standard attendance access

RETURN FLIGHT

Economy airfare, mandatory charges and one checked bag

ACCOMMODATION

A private standard room and mandatory lodging charges

Your pioneer travel package

One named adult representative per enrolled creator or studio receives the package. Hotel coverage includes official festival nights plus one arrival and one departure night. Scheduled airport and venue transfers, standard festival meals and a standard visa application fee where needed are included.

Kiviox books and pays directly. Companions, upgrades, personal tourism and extra nights are excluded. Visa approval and entry remain government decisions. City, venue and exact dates will be announced separately.

Your signed festival schedule confirms the entitlement, booking process, postponement and cancellation arrangements before enrollment. Earned benefits do not depend on continuous uploading through 2031. Attendance does not guarantee a screening, award or commercial deal.

YOUR INVITATION

Bring your next film to Kiviox.

Independent filmmakers, AI filmmakers, animators and studios are welcome to express interest. Shorts and features are eligible.

1

Introduce your work

Reply to the person who sent you this Kiviox invitation with your name, country, studio name if applicable, and a link to your film or portfolio. Applying is free. Do not send identity documents in your first reply.

2

Review your written offer

We review fit, available capacity and rights to distribute. Your offer confirms enabled revenue channels, available tools, delivery dates, membership, incentives and festival benefits before you sign. A place is confirmed only by written acceptance and agreement.

3

Complete secure onboarding

Standard checks are two factor authentication, ID verification and address verification. Required banking, tax, business and payment provider information may also be needed for payouts. Film rights permissions remain necessary.

4

Release your first approved film

Publish within 60 days of acceptance and keep the film available for 90 days to earn pioneer status. Reasonable onboarding extensions may be agreed. No monthly upload quota or minimum commercial performance is required.

Your program scope. Approved uploads and listings are free for 24 months from your first approved release, within three films and six total hours; extra capacity or a longer film may be agreed. Shorts are eligible without the usual 65 minute minimum. Copyright, content, age rating and fraud rules remain. Pages 7 and 8 explain the benefit windows, waivers and payment protections.

Your signed offer and schedules confirm your place and benefit delivery.

YOUR BENEFITS IN ONE PLACE

Know your benefits. Know your dates.

Each benefit has a defined window and scope. Your signed offer records the dates that apply to your enrollment.

BENEFIT	WINDOW	STARTS WITH
Complimentary KYxara	12 months	First approved film release
Protected revenue rates	24 months	First monetized release
Approved upload and listing fees	24 months waived	First approved film release
Welcome earnings boost	90 days; $250 cap	First monetized release
Launch service credit	90 days; $150 cap	First approved film release
Subscriber referral rewards	First six paid months; $100 total creator cap	Each eligible subscriber first paid month

The entry barriers we waive

No minimum followers, views, watch hours, account age, prior earnings, existing catalog or multiple film history. Shorts and features are accepted without the usual 65 minute minimum. Numerical entry scores and duplicate reviewer gates are waived; one practical technical, rights and content check remains.

No compulsory purchases or extra identity packages

Application and basic identity verification are free. You do not need a paid creator subscription, advertising purchase, promotional subscription, portfolio photo package, routine interview, exclusivity or Yxara licensing enrollment. Required payout checks and film rights permissions still apply.

Caps apply once per participant. Duplicate accounts or artificial activity cannot multiply benefits. Services beyond the included film, language and production allowances require separate agreement.

BEFORE YOU COMMIT

The details behind the promise.

Clear allocation rules, payment protections and written benefit schedules support a fair relationship from the first release.

How are subscription earnings allocated?

For each paying subscriber each month, 50% of net subscription receipts is allocated by qualified minutes across the titles that subscriber watches. No further 80% multiplier is applied. Bots, self generated traffic and fraudulent loops do not qualify; allocation is capped at three complete title runtimes per subscriber per month. Unused creator allocations carry for 90 days, then join the same plan pool, divided by qualified viewing minutes that month. If that plan has no qualified viewing, funds continue to carry.

What happens with refunds or payment holds?

Refunds reverse the creator and Kiviox shares proportionately, including any linked welcome bonus. A documented elevated risk may require a notified reserve of up to 10% of affected payables for up to 60 days, reviewed every 30 days. Longer holds require a specific unresolved claim, provider restriction or legal requirement. Undisputed earnings remain payable; the same loss is never deducted twice.

Can I withdraw my film or leave?

Ordinary withdrawal uses 30 days notice, with faster restriction for a credible rights or safety issue. Previously sold access follows the license you agreed. You receive an export window and final statements; earned money is not forfeited because you leave or have a small balance. Statement queries and a review route are available. Pioneer recognition and earned festival benefits survive ordinary withdrawal.

How is my Spring 2031 benefit confirmed?

Pioneer places are awarded only with confirmed funding and a signed festival schedule. That schedule states the departure airport, booking deadlines, postponement period and funded substitute or remedy if the event is permanently cancelled. You receive it before enrollment. Once earned, the benefit is not conditional on future sponsor receipts, minimum film revenue or continuous uploading.

Can the accepted terms change?

Accepted revenue rates remain protected for their 24 month term. A renewal proposal arrives at least 60 days before expiry, with a choice to withdraw. Necessary legal or security changes do not erase earned revenue or vested benefits. Your downloadable signed agreement identifies the operating company, film permissions, collaborator splits, complaint route and applicable schedules.

Only enabled revenue channels and tools are included in your confirmed release plan. Kiviox does not promise a minimum income, audience size, screening selection or award. Reply to your Kiviox invitation for your written offer.
